RE: Paddys Run and Drainage PSP
RTC

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Responses to Comments (RTC) on the Project Specific Plan (PSP) for the predesign characterization of sediments in Paddys Run and associated drainage features, Revision 0.

The RTC has adequately addressed U.S. EPA's previous comments. Therefore, U.S. EPA approves the RTC. However, the RTC must be incorporated into a revised document and submitted to U.S. EPA for approval.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
