RE: Multi-Complex Completion Report

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) project completion report for the Multi-Complex Decontamination and Dismantlement (D&D). The document summarizes the D&D activities for all of the components of the Multi-Complex.

The implementation plan appears technically adequate and is consistent with other similar documents. However, the report includes tables that summarize wastewater analytical results. The report should include the data for these results in an appendix. Therefore, U.S. EPA approves the project completion report for the Multi-Complex D&D. U.S. DOE must submit a revised appendix within thirty (30) days receipt of this letter.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
