SEP 16 2004

Mr. Paul Pardi, RCRA Group Leader
and FFCA Project Manager
Ohio Environmental Protection Agency
Division of Hazardous Waste Management
401 East 5th Street
Dayton, Ohio 45402-2911

DOE-0403-04

Dear Mr. Pardi:

SUBMITTAL OF CROSS-REFERENCE INDEX PURSUANT TO THE DIRECTOR'S FINAL FINDINGS AND ORDERS FILED JUNE 6, 1996: DRAFT PILOT PLANT COMPLEX PROJECT COMPLETION REPORT

Reference: Letter and Director's Final Findings and Orders from T. E. Crepeau, OEPA to P. Hamric, U. S. DOE and J. Bradburne, FERMCO, dated June 6, 1996.

In accordance with Section V, Order #2 of the referenced Director's Final Findings and Orders (DF&O), enclosed is a cross-reference index of Hazardous Waste Management Unit (HWMU) closure components and CERCLA documents for those HWMUs identified in Attachment A of the DF&O. The index links specific components of Ohio Environmental Protection Agency's (OEPA) Closure Plan Review Guidance for RCRA Facilities related to substantive closure requirements with the appropriate CERCLA document, which addresses those components. The list is cumulative and provides page numbers and sections for those CERCLA documents that have already been submitted.

Section V of the DF&O requires the Fernald Closure Project to provide an updated copy of the cross-reference table following the submittal of a referenced CERCLA document. The Draft Pilot Plant Complex Project Completion Report was submitted to the OEPA and United States Environmental Protection Agency (USEPA) on September 14, 2004. The specific reference to this document in the cross-reference table has been highlighted.

Mr. Paul Pardi

12. Status of Facility (or Unit) After Closure (Closure Guidance Item 3.19)	OU1 FINAL Record of Decision, January 1995 OU3 FINAL Record of Decision for Interim Remedial Action, June 1994 OU3 Final Record of Decision for Final Remedial Action, September 1996 OU5 FINAL Record of Decision, January 1996 OU5 FINAL Sitewide Excavation Plan, July 1998 OU5 Certification Reports for Individual Remediation Areas	Status of Waste Pits After OU1 Remedial Action: pp. 10-1 to 10-9 Status of Production Area HWMUs After OU3 Remedial Action: Section 5.4, p. 11 Integration of the Interim and Final Remedial Actions, Section 2.1, p. 9 Status of FCP After Soil and Groundwater Remediation: Section 4.0, p. 4-1 Certification Reports: Section 7.4, pp. 7-10 to 7-14 Status of those HWMUs That Had Soil Contamination After Soil Remedial Action: To be Submitted (if required)

¹ Closure Guidance Items are from the Closure Plan Review Guidance for RCRA Facilities, Ohio EPA, March 1999.

² The perched water contamination has many sources, only some of which are the HWMUs. Because of this, it is difficult or impossible to identify the degree to which a HWMU may have contributed to perched water contamination. Therefore, the nature and extent of contamination in the perched water, and the most appropriate remedial action method and objectives, are best achieved under the CERCLA process alone.

³ Ohio EPA has two options for clean closure where there are no more RCRA requirements (i.e., no post-closure requirements) for the existing HWMUs: (1) complete removal of waste and impacted environmental media, and (2) complete removal of waste and impacted environmental media to health-based standards (known at the FCP as Final Remediation Levels, FRLs). Post closure requirements will, however, be applicable to the CERCLA on-property disposal cell as it will take some soil and debris contaminated with RCRA-hazardous waste [see Post Closure Care and Inspection Plan, On-Site Disposal Facility (20100-PL-010, Rev. 1, July 1997)].
