RE: OU 1 Transportation and  
Disposal Plan; SP-7 IP

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Operable Unit (OU) 1 transportation and disposal plan and SP-7 implementation plan. These documents provide details for removing materials from the SP-7 stockpile and loading the material into rail cars for shipment to Envirocare's facility for disposal.

The OU 1 transportation and disposal plan appear technically however the SP-7 implementation plan has an issue that must be addressed. Therefore, U.S. EPA approves the OU 1 transportation and disposal plan, but disapproves the SP-7 implementation plan. Therefore, U.S. DOE must submit a revised SP-7 implementation plan to U.S. EPA within thirty (30) days receipt of this letter.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
