RE: Miscellaneous Small Structures
 Phase II Project Amendment #4

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) miscellaneous small structures-Phase II project amendment #4 for above grade Decontamination and Dismantlement (D&D) of the train trestle and remaining sitewide railroad tracks.

This document is technically adequate and consistent with similar reports. Therefore, U.S. EPA approves the miscellaneous small structures-Phase II project amendment #4 for above grade Decontamination and Dismantlement (D&D) of the train trestle and remaining sitewide railroad tracks.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
 Remedial Project Manager
 Federal Facilities Section
 SFD Remedial Response Branch #2
