RE: Area 6 Former Production Area
and Main Drainage Corridor
Certification Report

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) certification report for the Area 6 former production area and main drainage corridor area. The document provides certification information and data for 28 certification units and three hazardous waste management units in this area.

The certification report adequately demonstrates that the area has achieved the final remediation levels, and is consistent with other certification reports. Therefore, U.S. EPA approves the Area 6 former production area and main drainage corridor area certification report.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
