RE: Waste Storage Area Phase 2  
Module PSP

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Project Specific Plan (PSP) for the Waste Storage Area phase 2 module extraction well and monitoring wells. The PSP describes the plan for installing one extraction well and six monitoring wells in the Waste Storage Area.

The PSP appears technically adequate and is consistent with similar documents. Therefore, U.S. EPA approves the Waste Storage Area phase 2 module extraction well and monitoring wells PSP.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
