RE: Area 1, Phase 2 Dissolved Oxygen
Facility CDL Addendum 3

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Addendum 3 to the Certification Design Letter (CDL) for Area 1, Phase 2. The document describes a plan to sample the soil in the area surrounding the Dissolved Oxygen building as well as an area where a clay pipe was encountered while excavating the drainage ditch east of the On-Site Disposal Facility Cell 8.

The CDL appears technically adequate and is consistent with similar documents. Therefore, U.S. EPA approves Addendum 3 to the Area 1, Phase 2 CDL.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
