**RE: APPROVAL - RTC OU3 FACT SHEET - BENEFICIAL REUSE**

Mr. Reising:

Ohio EPA has received DOE's "Transmittal of Responses to Ohio EPA Comments on the Operable Unit 3 Fact Sheet - Beneficial Reuse of Clean Buildings and Structures at the U.S. DOE -Fernald Closure Project" submitted on July 20, 2006 . During our telephone conversation today, it was agreed that the fact sheet would include provisions to specifically inspect areas of debris/stone reuse for erosion as part of the site inspections and that this requirement would be incorporated into the next revision of the LMIC.

Based upon our review and the commitment from today's call, Ohio EPA concurs with the response to comments and awaits the revised fact sheet incorporating the responses.

If there are any questions, please contact Donna Bohannon or me.

Sincerely,

Thomas A. Schneider  
Fernald Project Manager  
Office of Federal Facilities Oversight
