RE: Area 6 SP8 Addendum
Certification Report

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) addendum to the Certification report for Area 6 former production area and main drainage corridor area for the certification of the former Soil Pile 8 (SP8) area. The document provides data for the SP8 certification unit.

The addendum to the certification report adequately demonstrates that the area has achieved the final remediation levels, and is consistent with other certification reports. Therefore, U.S. EPA approves the addendum to the Certification report for Area 6 former production area and main drainage corridor area for the certification of the SP8 area.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "James A. Saric".
