RE: Area 6E Certification Report

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) draft certification report for Area 6E. The document provides certification information and data for 24 certification units in this area to demonstrate the soil in this area meets the final remediation levels.

Although this document is consistent with other certification reports, there are discrepancies within the report that must be addressed. Therefore, U.S. EPA disapproves the certification report for the Area 6E. U.S. DOE must submit a response to comment and a change page revising the document within thirty (30) days receipt of this letter.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
