Dear Ms. Hooten:

Enclosed is a draft response letter to Ohio EPA's NPDES Compliance Evaluation Inspection Report. The one issue identified will be resolved by installing signage on the Knollman Farm property; the sign will be installed before the end of the calendar year.

Please contact me at (513) 648-3894 if you have any questions.

Sincerely,

REFERENCE: Letter, M. Osika to J. Powell, "Compliance Evaluation Inspection NPDES
Permit 11O00004*HD/OH0009580", dated October 23, 2013

Dear Ms. Osika:

In response to Section J of the referenced letter and report concerning the final outfall signage for Outfall 001, the Fernald Preserve is in the process of fabricating a sign to be installed at the point of discharge to the Great Miami River. The property owner has granted permission to place the required signage so that the public is aware that the discharge is associated with a NPDES permit and to provide a phone number to notify the site if a problem is identified. The sign will be installed before the end of the calendar year.

Ms. Jane Powell has accepted another position within DOE and I am the new Fernald Preserve Site Manager. Please call me at (720) 880-4349 if you have any questions or require additional information.

Please send any correspondence to:
