SUBJECT: Contract No. DE-AM01-07000LM00060, S.M. Stoller Corporation (Stoller)  
Transmittal of Fernald Preserve Operational Design Adjustments-1, WSA  
Phase-II, Groundwater Remediation Design Report, Draft

REFERENCE: Task Order LM00-502-1-06-506, ODA CERCLA/RCRA Sites

Dear Ms. Powell:

This letter transmits the Fernald Preserve Operational Design Adjustments-1, WSA Phase-II Groundwater Remediation Design Report, Draft, for submittal to the United States Environmental Protection Agency (EPA) and Ohio Environmental Protection Agency (Ohio EPA).

This report evolved from work presented in the Groundwater Remediation Alternative Analysis Report, Fernald Preserve; July, 2013. A meeting between DOE, EPA, and Ohio EPA was held on August 21, 2013 in which the different modeling alternatives and results presented in the Alternatives Analysis Report were discussed. The discussion focused on Alternative OA5c as a potential path forward. The August meeting resulted in agreement to move forward with a modified version of Alternative OA5c, and to prepare the subject report.

Please contact me at (513) 648-3894 if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "William A. Hertel". The signature is written in a cursive style.

William A. Hertel  
Stoller Site Manager
