SUBJECT: Contract No. DE-LM0000415, The S.M. Stoller Corporation, a wholly owned subsidiary of Huntington Ingalls Industries (Stoller)
Task Assignment 502 LTS&M 2
Transmittal of Contract Deliverable: Complete construction of boardwalk across a wetland basin (PREW5) along the Sycamore Trail
Activity Code CR14B-1130 – Completed: September 26, 2014

REFERENCE: Prime Contract Attachment 2, Statement of Work

Dear Ms. Pennal:

This letter documents the achievement of the subject deliverable, "Complete construction of boardwalk across a wetland basin (PREW5) along the Sycamore Trail." The Sycamore Trail Boardwalk involved construction of a 280 ft. publicly accessible boardwalk that links two portions of the Sycamore Trail at the Fernald Preserve. A Task Release under Construction Basic Ordering Agreement 4484-PZ was awarded to the construction contractor on August 7, 2014. Fieldwork commenced on September 3 and was completed on September 26.

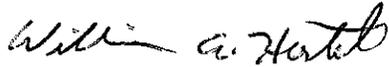

Fieldwork was originally planned for earlier in the year. However, geotechnical investigation as part of the project design revealed that conventional concrete footers may not provide sufficient load-bearing capacity in the wetland soils. This required an alternative foundation design. After an engineering evaluation of several options, helical piers were determined as the preferred approach. This innovative approach not only provided sufficient load-bearing capacity, but also minimized soil disturbance within the wetland basin.

The Stoller LMS Team is committed to high-quality customer service and continual improvement. We would appreciate any feedback you may have on this submittal.

Ms. Christina M. Pennal
