1. How well do you understand DOE's plans to transport waste off site?

- | | | | |
|-------------------------------------|-----------|--------------------------|---------------|
| <input type="checkbox"/> | Very well | <input type="checkbox"/> | Not very well |
| <input checked="" type="checkbox"/> | Well | <input type="checkbox"/> | Not at all |

If not, why? *Speakers were not certain of all methods of safety for residents living near the rail tracks or near the fence. Speakers need to be able to understand how to talk to the common person!! You tend to talk down to the average person!*

2. DOE has proposed to transport waste from Operable Unit 1 by rail to an off-site disposal facility, and transport waste from Operable Unit 4 by truck to the Nevada Test Site. What concerns, if any, do you have with this proposed action?

Waste does not only need to be dry but also needs to be compacted so the lead does not shift.

3. How satisfied are you with the answers given to questions?

- | | | | |
|-------------------------------------|--------------------|--------------------------|-------------------|
| <input type="checkbox"/> | Very satisfied | <input type="checkbox"/> | Satisfied |
| <input checked="" type="checkbox"/> | Somewhat satisfied | <input type="checkbox"/> | Not satisfied |
| <input type="checkbox"/> | | <input type="checkbox"/> | Very dissatisfied |

You were not ready to be put on the spot!!

Why? A good speaker should not have to repeat his point of view over and over again. The person asking the question did not get his point the first time. Try another way to express his point of view. You lost control of the group and the meeting overran the scheduled time!

7. What did you like the most about the meeting?

Overheads were very clear and easy to read and therefore they were easy to understand. Everybody had the "at home feeling" when speaking or asking questions. You did say that you would go back and look at items of concern.

8. What did you like least about the meeting?

Display items were at a location where you needed to turn around and look at the person sitting behind you. People do not like to look at people behind them. Think about what you do at the movies or at church! Who took notes of what was stated at this meeting to follow up on all questions.
