Discussion

A draft version of the 371 DOP responsiveness summary was distributed. Several main topics were discussed to include the use of explosives, monitoring during decommissioning, the IMP update, and the method of backfilling the void that will be created during decommissioning activities. All of the comments provided by Mary Harlow and the Site responses to those comments were discussed. The meeting concluded before going over all of the Broomfield comments from Shirley Garcia, but it was agreed that everyone would take a look at the draft responsiveness summary and be prepared to discuss any questions or concerns at the D&D meeting on February 21, 2001.
