Rocky Mountain Remediation Services (RMRS) requests that a letter be submitted to the Colorado Department of Public Health and Environment (CDPHE) proposing that Room 183 be accepted as "RCRA Stable" in order to facilitate construction of a new size reduction facility to support D&D activities under the Building 771 Decommissioning Operations Plan. A copy of the current permit drawing for Room 183 is attached.

The following conditions currently exist in Room 183, which fulfill the requirements for "RCRA Stable" status:

- All hazardous waste containers have been removed from the room, and the WEMS system has been updated to indicate no container storage.
Inspection records indicate that no spills or leaks have occurred in the room since it was established as a RCRA storage area.
No staining or waste residuals are visible on the floor of the storage area.

RFETS requests that Room 183 in Unit 771.1 be deemed "RCRA Stable" and that weekly RCRA inspections be terminated. Operation of the size reduction facility will be result in the generation of both hazardous and non-hazardous wastes which will be managed per the applicable requirements of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and the Building 771 Decommissioning Operations Plan (DOP).

A draft letter to CDPHE is attached for your use. Please submit this request for approval of "RCRA Stable" status for Room 183 at your earliest convenience.

A permit modification request for the new configuration of Room 183 will be submitted to CDPHE under separate cover. Operation of the new size reduction facility will commence after the permit modification request is approved by CDPHE.
