Golden, CO 80403-8200

RE Changes in Work Sets in Building 771

Dear Mr Legare

We have received your letter dated June 7, 2000 concerning subdividing Building 771 Set 38 into four individual sets, as well as your letter dated June 14, 2000 concerning deviations to specific set descriptions and major endpoints found in the Building 771/774 Decommissioning Operations Plan (DOP)

In reviewing the information provided regarding the deferred endpoint for Set 50 as identified in your June 14th letter, we were concerned with the indicated activity of transferring liquids to Building 774 through "sanitary drains" Sanitary drains have been previously determined to be connected to the Sanitary Sewage Treatment Plant (STP) and would not flow to Building 774 However, it has been determined that the drain identified in Set 50, Room 168, is labeled as a process waste drain and not a sanitary drain As such, this drain is indicated to flow to building 774 and not to the STP Future references should properly identify the appropriate type of drain to prevent any misunderstanding

The Colorado Department of Public Health and Environment hereby concurs with these Field Modifications to the DOP

If you have any questions, please contact me at 303-692-3367

Sincerely,

Steven H Gunderson
RFCA Project Coordinator
