**TITLE OF THE REVISED SUPPLEMENTAL RECONNAISSANCE LEVEL  
RADIATION REPORT (RLCR) FOR THE TYPE 1 and TYPE 2 FACILITIES,  
771 PROJECT - JLS-005-01**

Your review and approval is the subject revision report for the Building 771 Closure Supplemental RLCR dated March 7, 2001 has been revised to be consistent with your comments dated March 8, 2001. Though the Building 771 Exhaust Stack are considered Type 2 Facilities in the RLCR, they will be dispositioned as per the RLCR and the 771 DOP. Based upon the potential of chemical contamination, Building 714 and Tanks 176, 185, 194 and 195 have been reclassified as Type 2

I would appreciate your review and approval by COB March 30, 2001. Once approved, I will send a copy to the Colorado Department of Health and Environment for their review. If you have any questions, don't hesitate to call me at extension 5797.

**TRANSMITTAL OF THE REVISED SUPPLEMENTAL RECONNAISSANCE LEVEL  
CHARACTERIZATION REPORT (RLCR) FOR THE TYPE 1 and TYPE 2 FACILITIES,  
BUILDING 771 PROJECT – JLS-005-01**

Provided for your review and approval is the subject revision report for the Building 771 Closure Project. The Supplemental RLCR dated March 7, 2001 has been revised to be consistent with the 771 DOP and your comments dated March 8, 2001. Though the Building 771 Exhaust Tunnel and Stack are considered Type 2 Facilities in the RLCR, they will be dispositioned as Type 3 Facilities per the RLCR and the 771 DOP. Based upon the potential of chemical contamination, Building 714 and Tanks 176, 185, 194 and 195 have been reclassified as Type 2 Facilities.

Again, I would appreciate your review and approval by COB March 30, 2001. Once approved, please forward a copy to the Colorado Department of Health and Environment for their concurrence. If you have any questions, don't hesitate to call me at extension 5797.
