RE: Pre-Demolition Survey Report (PDSR) for Building 771 Exhaust Stack - Approval

Dear Mr. Legare:

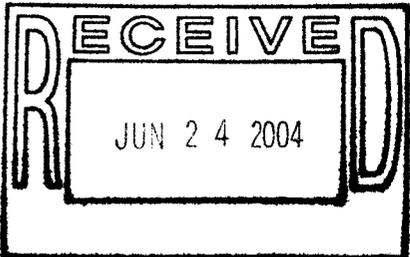

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the PDSR for Building 771 Exhaust Stack, Revision 0 dated June 9, 2004, and PDSR Addendum for the Exhaust Stack, Revision 0 dated June 18, 2004. Based on the information contained in this PDSR, and the results of the previously performed investigation, which demonstrate that the entire stack meets the unrestricted release criteria, we are hereby approving the PDSR for the Building 771 Exhaust Stack.

Although we are approving the PDSR for the B771 Exhaust Stack, the Exhaust Tunnel from B771 to the Exhaust Stack was not included in this PDSR. However, as stated in this PDSR, even though the Exhaust Tunnel does not meet the unrestricted release criteria, the remaining contamination will be appropriately protected to prevent releases during the demolition of the Exhaust Stack.

If you have any questions regarding this correspondence please contact me at (303) 692-3367, Denise Onyskiw at (303) 692-3371, or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
