INTEROFFICE MEMORANDUM

DATE: October 1, 1997
TO: Distribution
FROM: S. M. Nesta, National Environmental Policy Act, T130C, X6386 *SMNesta*
SUBJECT: REVIEW OF BUILDING 779 DECOMMISSIONING OPERATIONS PLAN
(DOP) DATED SEPTEMBER 1997 - SMN-187-97

The Site is proposing to decommission Building 779. This activity will be guided by the Building 779 DOP, a copy of which is attached for your review and comment. You were given an opportunity to review an earlier version of this document last May. The current version has been modified in response to comments on its predecessor, and to incorporate the elements for a Interim Remedial Action under CERCLA.

It is important that you thoroughly review the DOP with respect to your areas of expertise and responsibility for any issues related to project effects or compliance. Submit your comments to me no later than close of business **Wednesday, October 8, 1997**. Please note that comments were originally due on October 6, but we were able to negotiate a little extra time in a very tight schedule. Contact Bill Moore of Labat/Anderson NEPA at X8132 if you have any questions or need additional information.
