REQUEST FOR MINOR MODIFICATION OF THE DECOMMISSIONING OPERATIONS PLAN (DOP) FOR THE BUILDING 779 CLUSTER INTERIM MEASURE/INTERIM REMEDIAL ACTION - JWW-001-00

The purpose of this memorandum is to request notification to the Colorado Department of Public Health and Environment (CDPHE) of minor modifications to the Building 779 Cluster Decommissioning Operations Plan (DOP). These minor modifications are as follows:

- Include a description of the pits and sumps associated with Buildings 779, 782 and 783
- Identify that these pits and sumps have contaminated groundwater infiltrate and describe the process that will be implemented to address the treatment of the groundwater infiltrate

The proceeding information has been added to Section 3, Area Descriptions and Planned Activities of the Building 779 DOP, and is enclosed (Enclosure 1) as Page Change Summary (PGC-007) for incorporation into the DOP. The enclosure also includes a draft memorandum from the Department of Energy (DOE) Rocky Flats Field Office (RFFO) to CDPHE, to assist RFFO in the transmittal to CDPHE.

Please call me at extension 7592, or Kathy Zbryk at extension 6647, if you have any questions or need additional information. Notification of RFFO's concurrence and a copy of RFFO's notification to CDPHE would be appreciated.
