Agency: CDPHE

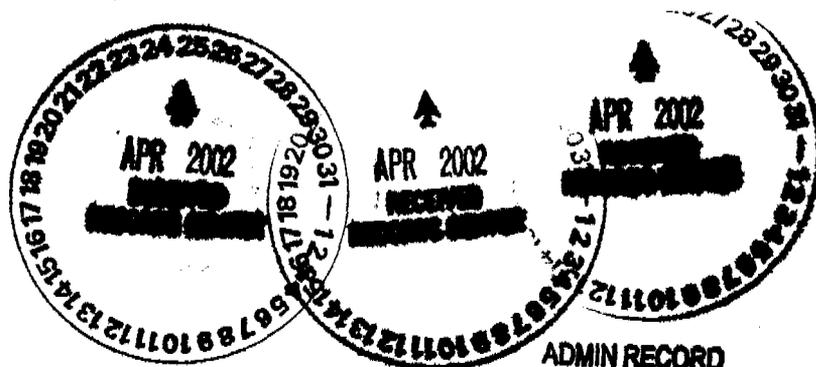

Purpose of Contact: Discussion of PAC 800-1205 and UBC 887 Relocation and Boundary Change

Discussion

A meeting was held with Dave Kruchek (CDPHE) to discuss the correct location of Potential Area of Concern (PAC) 800-1205 and Under Building Contamination (UBC) area UBC-887. The present location of these two sites is inaccurate as shown on HRR coverages (Plate 4, KH, 2001). PAC 800-1205 is identified as the Building 881 East Dock area and has been relocated on the map to accurately represent this area.

Secondly, UBC-887 was relocated to represent the actual Building 887 footprint as it was originally intended. The HRR location inaccurately reflected the UBC showing its location outside of the Building footprint (approximately 18 feet to the South).

Both of these revisions were agreed to by the CDPHE representative and the boundaries have been changed to best reflect the original intent of the investigation area. The modified boundaries will be reflected in the ER IA SAP Addenda #IA-02-04, the 2002 HRR and other future documents.
