**Regulatory Contact:** David Kruchek  
**Phone:** 303-692-3328

**Agency:** CDPHE

**Purpose of Contact:** Building 881 exclusion dock pre-demolition survey data and demolition

### Discussion

This contact record is to document the consultative process and CDPHE approval of the pre-demolition surveys conducted to support the mechanical demolition of the Building 881 exclusion dock. The surveys demonstrating these areas were at unrestricted release were provided to CDPHE during a bi-monthly B881 status meeting on May 13. In addition, follow-up information was provided on the surveys and information copies of the work packages were provided to CDPHE.

The exclusion dock consists of room numbers 288A and 288B. Prior to initiating demolition activities, 288A will be barricaded at the entrance to Room 247 to block the exclusion dock off from the rest of Building 881. The soil overburden will be removed and the exclusion dock will be demolished with an excavator with attachments up to column line M. The area will be backfilled and roughly graded to allow the excavator to use this area during the removal of 881F, the Building 881 plenum. The removal of 881F will be addressed in a separate contact record.
