

# ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

---

**Date/Time:** January 13, 2005

**Site Contact(s):** Dyan Foss  
**Phone:** 303-994-0325

**Regulatory Contact:** David Kruchek  
**Phone:** 303-692-3328

**Agency:** CDPHE

---

**Purpose of Contact:** Building 883 North Side final survey data and transite removal approval

---

## Discussion

This contact record is to document CDPHE approval of the Building 883 North side (Rooms 106, 107, 108 (stairwell), 128, 129, 201, 202, 203, and 207) final survey data, and initiation of transite removal on the north side Building 883. Transite removal outside this area will require additional CDPHE approval and a contact record.

Survey results for the subject areas were provided to CDPHE on January 13, 2005. A walk down of the area was also completed on January 13, 2005. Final surveys were performed in accordance with the Site-wide Pre-Demolition Survey Plan (PDSP) and Radiological Safety Practice procedures.

The slab will not be demolished or damaged during the 883 north side transite removal. Although there is no removable contamination, the slab has residual contamination under the epoxy/paint. Plywood will be placed on the 883 north side slab prior to initiating transite removal to ensure that falling debris does not damage the epoxy/paint and potentially release contamination. If there is a need to bring heavy equipment onto the slab or edge of the slab, steel plates will be placed in the areas the equipment will move to further protect the paint fixative from damage.

The transite removal will not result in any openings into Building 883 contamination areas. Prior to initiating asbestos abatement, the floor plate in Room 107 will be secured and the stairwell to the basement will be covered and blocked. Special care will be taken during transite removal to ensure the original structure is not damaged, potentially creating an opening into the building and a pathway for contamination into the environment. In the event this situation occurs, work operations will stop and the opening will be covered immediately.
