

**Colorado Department of Public Health and Environment  
Hazardous Materials and Waste Management Division**

**Comments on**

**Preliminary**

**DRAFT CORRECTIVE ACTION DECISION / RECORD OF DECISION  
OU 11: WEST SPRAY FIELD (IHSS 168)  
July 1995**

**PAGE 1:**

1. Since RFETS is not actually in Golden, "Jefferson County, Colorado" probably sufficiently describes its location.
2. In the last sentence under Description of the Selected Remedy, it might be more effective to use the present tense; i.e., "...OU 11 is in a protective state and presents no unacceptable risk..."
3. Add a hyphen to "five-year review" under Declaration Statement.

**PAGE 2:**

4. Since RFETS is actually closer to Boulder than Golden, it may be more precise to say that RFETS is located between the cities of Golden and Boulder (Site Name, Location, and Description).
5. The last ¶ under Site Name, and Description, which describes demographics, is probably unnecessary in a decision document like this.

**PAGE 3:**

6. It is assumed the the response to comments referred to in the ¶ under Highlights of Community Participation will be included in the next version of this document.

**PAGE 4:**

7. The information contained under Scope and Role of Operable Unit 11 within Site Strategy is contained elsewhere in this document making this section redundant and unnecessary. The text does not really describe the "Scope and Role" of OU 11 anyway.
8. The first ¶ under Site Characteristics contains information similar to that in Site Name, Location, and Description on page 2. The seeps described in the last 3 sentences are beyond OU 11. It may be useful to make that clear.
9. Most of the second ¶ under Site Characteristics concerns risks and risk-based remediation goals. It may be appropriate to retitle this section (e.g., "Potential Contaminants and

ADMIN RECORD

BZ-A-000505

1/2

Contaminant Migration") or move this information to the next page under Summary of Site Risks.

PAGE 5:

10. The sentence under Summary of Site Risks that mentions ARARs is out of place in this section. It may be more appropriately placed somewhere in the discussion of PCOCs on the previous page.

(In the faxed copy that I have, page 6 is missing.)
