Dear Mr Rehder

The U S Department of Energy Rocky Flats Field Office is pleased to transmit to your agency the "903 Pad/Ryan's Pit Plume Project Completion Report" for Fiscal Year 1999. This report documents the completion of the 903 Pad/Ryan's Pit Plume Project at the Rocky Flats Technology Site. The objective of this project was to install plume monitoring wells and perform characterization activities to evaluate whether monitored natural attenuation is an effective means of ensuring the protection of surface water quality. Monitoring will continue per the sampling and analysis plan. Two copies will also be forwarded to the Colorado Department of Public Health and Environment.

If you should have any technical questions related to this report, please contact Norma I Castaneda at (303) 966-4226 or contact me at (303) 966-5918.

Sincerely,

Joseph A. Legare
