BUILDING 788 ACTIONS - HPM-281-94

Ref: Mark N. Silverman ltr (02378) to H. P. Mann, Inclusion of Building 788 Actions Within the OU-4 ADS, March 3, 1994

In response to your request transmitted in the referenced correspondence, a briefing was presented on Friday, March 11, 1994 to V. F. Witherill, Department of Energy, Rocky Flats Office (DOE/RFO) and his staff. The briefing differed slightly from what was requested in that, rather than presenting just the approach to be used to furnish the detailed information requested in the letter, the briefing fully answered all points identified in your correspondence. No further action is required.

The briefing proposed a different action than that requested in point 2 of the letter. It was proposed to transfer the scope in question into existing work packages supporting Operable Unit (OU) 4 remediation rather than into new work packages, and to develop adequate cost accounting mechanisms to allow appropriate segregation and collection of Building 788 costs. This proposal was accepted.

If you have any questions regarding this matter, please contact Andy Ledford, OU4 Remediation Program Manager, at extension 8673.
