Re: Request for Information Pursuant to
Sections 3007 of RCRA & 308 of CWA

Dear Mr. Nicks:

On November 14, 1986, EPA requested you provide information regarding the possible receipt of hazardous waste at your publicly owned treatment works (POTW). That letter (copy enclosed) required a response by no later than December 14, 1986. As of the date of this letter, we have not received the response from your POTW. Consequently, pursuant to Section 3007 of the Resource Conservation and Recovery Act (RCRA) and Section 308 of the Clean Water Act (CWA), you are again directed to provide this information.

All information submitted must be signed and certified by a principal executive officer or ranking official of your POTW and returned within ten (10) days of the date of your receipt of this letter to:

POTW RCRA Hazardous Waste Project
Attention: William Kennedy
Water Management Division (8WM-C)
U.S. Environmental Protection Agency
999 18th Street, Suite 500
Denver, Colorado 80202-2405

Sections 3008 of RCRA and 309 of the CWA provide penalties for failure to accurately respond to this request. As this is the second request for this information, we must advise you that additional delay in your response could result in the application of one of several available enforcement remedies including the possible assessment of monetary penalties.

Should you have questions regarding this request, please contact either Mr. Marshall Fischer at (303) 293-1592 or Ms. Dana Allen at (303) 293-1593.

Sincerely yours,
Max H. Dodson

Max H. Dodson
