Subject: Acronym

Letter advising that the development of a Proposed Action Memorandum (PAM) is not necessary relating to the Decontamination and Decommissioning (D&D) activities in Building 889. Letter states it is assumed that no agency approvals or public review periods will be necessary for the project and any information sent to

Acronym

Building 889 was originally designed and constructed in 1968, with approximately 2,750 sq. ft. covered. B889 was originally used as an equipment decontamination and repackaging facility for the Uranium and Beryllium manufacturing operations.
