Gentlemen:

Enclosed please find a copy of the *Draft Final Sampling and Analysis Plan for the D&D Groundwater Monitoring of Buildings 444, 771, and 886, May 1999* for your review and comment. This sampling and analysis plan and program provides for the installation and development of pre-decontamination and demolition (D&D) monitoring wells, establishment of pre-D&D groundwater quality baseline conditions, and semi-annual groundwater monitoring during the D&D process.

Previous Kaiser-Hill and U.S. Department of Energy (DOE) Rocky Flats Field Office review comments have been incorporated into the report. DOE requests that response to comments be returned by May 31, 1999.

Sincerely,

Joseph A. Legare
Assistant Manager
for Environment and Infrastructure
