Dear Mr. Rehder:

The U.S. Department of Energy (DOE) Rocky Flats Field Office is pleased to transmit to your agency the *Draft Sampling and Analysis Plan for Characterization of Potential No Further Action Sites*, dated May 1999, for your review and comment. This sampling and analysis plan supports characterization of five potential areas of concern (PACs) for possible designation as no further action at the Rocky Flats Environmental Technology Site. The PACs included in this characterization effort were identified based on the need for additional investigation as presented in the historical release report documentation.

DOE requests that your office submit comments by June 4, 1999. If you should have any technical questions regarding this document, please contact Norma I. Castaneda at (303) 966-4226 or contact me at (303) 966-5918.

Sincerely,

Joseph A. Legare
