Subject: Annual NPDES Inspection Complete

----- Message Contents -----

FYI

EPA conducted an annual NPDES inspection today (last one was in 1996) and visited B995, B881, and the A- and B-series ponds. There were no significant findings, no uncovered surprises, and only a few recommendations. The on-site team that accompanied the inspector included John Stover, DOE, John Hill, K-H, and Leslie Dunstan and Bob Fiehweg, RMRS. The inspector requested some supplemental information and intends to send a list to DOE. His report of the inspection could be here in July or August, as he promised, but the 1996 report took 11 months.

Meanwhile, Leslie and I will follow up with a report to Water Management and Treatment and describe what we anticipate the findings to be.

Bob Fiehweg

Subject: EPA NPDES Inspection

----- Message Contents -----

FYI:

John Stover, DOE, has passed along a message from EPA that they intend to perform an NPDES permit inspection on Monday, June 15, 1998. EPA staff is expected to include Don Terrell and Ernest Lombardi. Don Terrell was the inspector who visited the Site in August 1996. No specific agenda has been presented from DOE, but as soon as it is developed it will be provided. It is our expectation that, as in the past, Bob Fiehweg may be the RMRS lead for this activity.

If you have any questions please contact me at X2002, Bob Fiehweg at X 7403 or John Stover, DOE at X9735.

Leslie Dunstan, RMRS Water Management and Treatment

Schedule for Cascade Briefing Meetings

*All meetings are scheduled from 12:00pm to 1:00pm in Building 116, Large Conference Room.
All input for Cascade Briefings is due to Kirste Ross no later than close of business the Monday prior.*
