RE Reconnaissance Level Characterization Report (RLCR) for Building 443 - Concurrence

Dear Mr Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the RLCR for Building 443 Revision 0, dated April 29, 2002, which was received on May 28, 2002. Based on the information contained in this RLCR, and the resolution reached at the June 18<sup>th</sup> meeting, we are hereby concurring with the Type 1 designation for Building 443.

Although this building is currently identified as a Type 1 Facility, it is recognized that it is still in use. As such, even with "isolation controls" (posting/signs) contamination may inadvertently be carried or brought into this facility. Therefore, additional assessments including investigations may need to be performed upon termination of active utilization. The consultative process should be utilized to acquire and provide this information prior to final disposition of this facility.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruchek at (303) 692-3328
