Mr. Steven H. Gunderson,
RFCA Project Coordinator
Colorado Department of Public Health and Environment (CDPHE)
4300 Cherry Creek Drive South
Denver, CO 80222-1530

Dear Mr. Gunderson:

Please find attached a completed Rocky Flats Cleanup Agreement Standard Operating Protocol (RSOP) for Facility Disposition Notice for building 993.

The Reconnaissance Level Characterization Report (RLCR) for Building 993 was effective on September 12, 2002. In accordance with the RLCR, the upper portion of the structure is suitable for free release. The slab does not meet free release criteria and is considered low-level waste. The facility disposition RSOP allows for items not meeting the free release criteria to be transitioned to Environmental Restoration (ER) to achieve overall integration from D&D through ER. Environmental Restoration has been informed of this condition and will remove the slab under the ER RSOP.

This work will be conducted by Kaiser-Hill Company, LLC, (KHC) Construction and its subcontractor. The requirements, methods, controls, and processes outlined in the RSOP will be followed. This work will be conducted in accordance with the work control documentation prepared by K-H and its subcontractor. The exact methods and process and progress of the activities will be communicated to DOE/LRA through the consultative process.

Questions can be directed to Steve Tower, RFFO, AMP at (303) 966-2133.

Sincerely,

Joseph A. Legare
Assistant Manager
for Environment and Stewardship
