Purpose of Contact: Permission to backfill excavations at the 889 Project

Discussion

On June 27, all excavation of the underground utilities had been completed at the 889 Project. In a discussion between Nick Demos and Elizabeth Pottorff, verbal approval was given by Elizabeth to backfill and compact the excavation. The approval was given "at risk", that is, should analytical results from samples already collected indicate contamination that exceeds action levels, specific remediation would then be required. All analytical results from sampling during the project have now been reviewed and no exceedance was noted.
