Regulatory Contact: David Kruchek
Phone: 303-628-3328

Agency: CDPHE

Purpose of Contact: Approval to backfill excavations associated with the former B-662 Slab

Discussion

On Monday, September 9, Dave Kruchek and I discussed backfill of excavations associated with the former B-662 Slab. The first excavation was the product of the removal of the B-662 footer foundation at the north end of the former slab. Present within the footer were a series of pipes that had rusted into the soil. Dave approved the backfill, but requested a sample be collected in the vicinity of the where the pipes had been. The sample will be collected during Geoprobe characterization of the former slab area. The second excavation was in association with exploration for a documented second slab beneath the recently removed slab. No second slab was found. Dave approved the backfill of the second excavation, but requested that should any Geoprobe characterization locations fall near the former excavation, the location be offset away sufficiently to not be sampling soil that had possibly been de-volatilized from the excavation.
