Mr. Steven H. Gunderson  
Rocky Flats Cleanup Agreement Project Coordinator  
Colorado Department of Public Health and Environment  
4300 Cherry Creek Drive South  
Denver, Colorado 80246-1530

Dear Mr. Gunderson:

Please find enclosed a completed Rocky Flats Cleanup Agreement Standard Operating Protocol (RSOP) for Facility Disposition Notification Form for Building 910, which is submitted for your review. Also enclosed is the Pre-Demolition Survey Report (PDSR) for Building 910. Expedited review of both is requested as ongoing grading work for the Solar Ponds Project would like to regrade this building site too. The Reconnaissance Level Characterization Report for Building 910 was effective in May 2000.

The enclosed PDSR shows that with the exception of some sand in the two tanks in the basement of the building, which will be shipped off as low level waste and a little asbestos containing material, all other parts of the building meet the free release criteria.

The demolition work will be completed by Rocky Flats Environmental Technology Site (Site) forces of either Kaiser-Hill Company, LLC or its team subcontractor so Site work control processes will be utilized. The exact methods for demolition and the schedule will be discussed in the ongoing consultative processes onsite. Questions may be directed to Steve Tower at (303) 966-2133.

Sincerely,

Joseph A. Legare  
Assistant Manager  
for Environment and Stewardship
