

Internal Memorandum

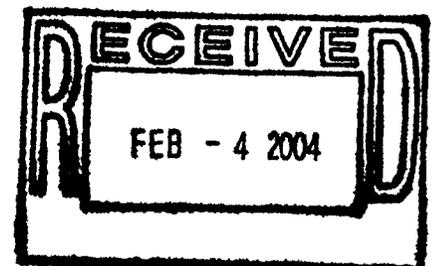

Date: November 10, 2003
To: Building Notification File: T131A
From: Steve Nesta
Subject: ADDITIONAL INFORMATION FOR CLOSEOUT REPORTS

CDPHE has provided comments to DOE concerning Type 1 Closeout Reports. To address CDPHE's comments, this memorandum documents the additional information identified by CDPHE for Building T131A.

Trailer T131A (Type 1 Facility)

- Electrical service was provided through an underground service line from First Street to the eastside of T131A. The service line was isolated at grade. Cables were removed from the conduit and the conduit left in place. Remaining conduit is 3 ft below grade.
- Telephone service was provided through an underground line from the telephone pedestal located northeast of Trailer T131A. The telephone line entered the Trailer from the northeast corner. The telephone line was isolated at grade. Wires were removed from the conduit and the conduit cut 3 ft below grade.
- Alarms system service was provided through an underground line from Building 131 to T131A. The service line entered the Trailer from the southeast corner. The service line was cut at grade and the wires pulled. The remaining conduit is 3 ft below grade.
- Water for fire protection was provided through an underground line located on the southeast corner of the Trailer. The water line was cut, capped, and removed to 7 feet below grade.
- Remaining infrastructure includes concrete anchor points and concrete slab (approximately 90 sq ft). Removal of the concrete anchors and slab will be done during the removal of the asphalt walkways and roadways around Building 130 Warehouse. All other structures were removed.

See Attachment 1, Trailer T131A, for location of telephone, alarms, and fire protection lines and for the location of the remaining concrete anchor points and slab.
