RE: Approval, Draft Industrial Area, Sampling and Analysis Plan, FY04 Addendum #IA-04-15, IHSS Group 700-1 (PAC 700-1115), May 2004

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the Division) hereby grants approval for the subject document. Owing to the limited constituents of concern and the nature of the release, i.e. volatile organic compounds from a diesel fuel spill; the Division had no substantive comments on the plan as written.

The Division foresees a slight potential for additional sampling to better delineate the extent, if any, of residual contamination. However, the current plan provides sufficient sampling, at appropriate depths, to support an intermediate or final decision.

Please provide a final document or replacement page showing today's approval date. If you have any questions regarding this correspondence, please contact me at (303) 692-3367, Harlen Ainscough at 303-692-3337 or Carl Spreng at 303-692-3358.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
