RE: Approval, Draft Data Summary Report for IHSS Group 700-10, PAC 700-1101  
Laundry Tank Overflow - Building 732, dated September 2004

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the Division) hereby grants approval for the subject report and, as a consequence, No Further Accelerated Action (NFAA) for IHSS Group 700-10. A comment resolution meeting, revisions submitted electronically and subsequent e-mails were successful in resolving the Division's verbal comments.

At issue was the Division's preference that data on an incidental water sample from a flooded sump, collected under a Regulatory Contact Record to the approved SAP addendum, be reported in the narrative. Additionally, the Division requested that the availability of soils data on volatile organic compounds, collected as the opportunity presented relative to the IA Plume, be made known to the Groundwater IM/IRA team.

We look forward to confirming that minor additional changes are reflected in the final document. If you have any questions regarding this correspondence, please contact me at (303) 692-3367, Harlen Ainscough at 303-692-3337 or Elizabeth Pottorff at 303-692-3429.

Sincerely,

Steven H. Gunderson  
RFCA Project Coordinator
