Purpose of Contact: Notification of Power Outage at CDPHE Samplers D-1 and E-1

Discussion

Rob Garren (URS RFETS Air Programs) contacted CDPHE representative Arch Crouse to determine if there were any issues with bringing down power to CDPHE samplers D-1 and E-1 for part of today and possibly part of tomorrow to support fence removal activities. Arch was informed that the outage also impacted Site sampler S-106 and that the sampler would be brought up on generator power during the outage. Arch determined that there were no issues with losing power to the CDPHE samplers for the specified period. The exact times of the outages will be forwarded to CDPHE representatives at the completion of the project. Please note that CDPHE representative Tony Harrison is the primary contact for these issues but was out of the office until next week.
