

Summary Report for Closure of RCRA Container Storage Unit 20

U.S. Department of Energy
Rocky Flats Environmental Technology Site
EPA ID No. CO7890010526

ADMIN RECORD

IA-A-002404

1.0 PURPOSE

This Summary Report pertains to RCRA closure activities for the RCRA Container Storage Unit 20 in Building 664, and is a requirement of Section 1.1 of the Closure Description Document (CDD) for this RCRA Unit (04-RF-00768). This report contains a description of major closure activities and any deviations from those stated in the CDD and other relevant information.

2.0 DESCRIPTION OF MAJOR CLOSURE ACTIVITIES

Closure activities were conducted under Work Packages 664-001. The seven secondary containment pans were hand wiped clean with a water/detergent mix. A Professional Engineer conducted the visual inspection of the pans against the clean debris surface standard, and certified the pans met the standard (see attached certification). These seven pans were subsequently disposed of as sanitary waste. There were no unanticipated circumstances or events to cause a deviation from the descriptions in the CDD.

3.0 SUMMARY

The requirements stated in the CDD have been fulfilled.

**CERTIFICATION OF CLEAN DEBRIS STANDARD FOR BUILDING 664 RCRA
UNIT 20 SECONDARY CONTAINMENT PANS – MTV-001-04**

Dear Steve:

On October 26, 2004, I performed a visual inspection of seven stainless steel secondary containment pans that were part of Building 664 RCRA Storage Unit 20. Five of the pans measured 4' x 8' x 4", the remaining two 4' x 4' x 4". All seven of the pans had been swept clean of loose materials and were hand wiped clean with water and a cleaning agent (Mariko). All of the secondary containment pans were free of any staining that would be indicative of spilled material. The pans meet the Clean Debris Surface standard required by the Closure Description Document for RCRA Permitted Container Storage Unit 20 in Building 664.

I, the undersigned, a State of Colorado Registered Professional Engineer, hereby certify that closure via clean debris decontamination of seven stainless steel secondary containment pans was achieved for RCRA Storage Unit 20, located in Building 664.

Professional Engineer seal, signature, and date attesting to closure certification statement:

Sincerely,

Michael Tylon Vess, P.E
Colorado P.E. Number 36144
