RE: Approval, Administrative Closure of RCRA Permitted Treatment Unit S002, Oil And/Or Aqueous Solidification Process, Building 440.

Dear Mr. Legare and Ms. Lavorato:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the "Division") has received the *Closure Description Document (CDD) for Closure of the ... RCRA Permitted Treatment Unit S002, Oil And/Or Aqueous Solidification Process, Building 440*, in correspondence signed by DOE on December 14, 2004. The CDD is hereby approved for the S002 treatment unit located specifically in Rooms 123A and 123B of Building 440.

The Division agrees that administrative closure, as described in State RCRA Permit CO-04-06-23-01, Permit Condition Part X.D.1.a, Clean Closure Option 1: Unit Review and Inspection, should be adequate. As acknowledged, Option 1 must be based on an Operating Record that indicates no releases occurred at any time during the brief operational period of the treatment unit, or were quickly mitigated, and by visual inspection. The CDD presents these as future activities; therefore, a closure summary report must be submitted as indicated.

If you have any questions concerning this correspondence, please contact me at 303-692-3367 or Harlen Ainscough at (303) 692-3337.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
