Rocky Flats Cleanup Agreement Project Coordinator  
Colorado Department of Public Health and Environment  
4300 Cherry Creek Drive South  
Denver, Colorado 80246-1530

Dear Mr. Gunderson:

Please find enclosed the Reconnaissance Level Characterization Report/Pre-Demolition Survey Report for Tent 04, DWF-054-05. This report characterizes the physical, chemical and radiological hazards associated with this facility, summarizes the characterization activities, defines the Data Quality Objectives developed for this characterization, and presents the data quality assessment, verification and validation of the results. Performance of the Reconnaissance Level Characterization and the Pre-Demolition Survey (RLC/PDS) were performed in accordance with the Pre-Demolition Survey Plan (MAN-127-PDSP); therefore, no further characterization of this structure is necessary.

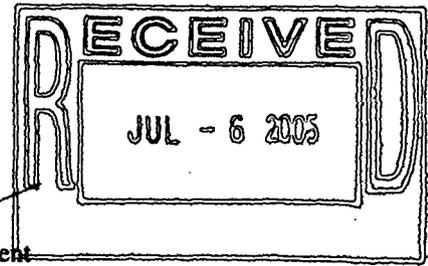

The RLC/PDS results indicate that no radiological, asbestos or beryllium contamination exist in excess of the PDSP unrestricted release limits for Tent 04. Tent 04 will be demolished and the waste managed as sanitary waste. However, the asphalt pad underneath the tent was radiologically surveyed in accordance with the Waste Release Evaluation (WRE) process and meets the unrestricted release criteria. The top layer of asphalt on the pad will be removed and managed as hazardous waste. The remaining asphalt will be disposed of as sanitary waste.

Based upon this RLCR/PDSR and subject to concurrence by the Colorado Department of Public Health and Environment, Tent 04 is a Rocky Flats Cleanup Agreement Type 1 Facility pursuant to the Rocky Flats Environmental Technology Site Decommissioning Program Plan (DPP; K-H, 1999) and is ready for demolition.

Questions may be directed to Gary Morgan, of my staff, at (303) 966-6003.

Sincerely,

*[Signature]*  
John J. Rampe, Director  
RFPO Closure Project Management
