Mr. Joseph A. Legare
Assistant Manager for Environment and Infrastructure
U.S. Department of Energy
Rocky Flats Field Office
10808 Highway 93, Unit A
Golden, Colorado 80403-8200

Dear Mr. Legare:

**RE: Environmental Restoration RFCA Standard Operating Protocol for Routine Soil Remediation FY 2002
Notification # 02-01**

The version of this document transmitted to us by email on 1/16/02 by Susan Serreze has addressed all outstanding comments we have made regarding the draft notification. We appreciate the efforts of your staff to resolve our comments on this first notification. The notification is approved. Based in information provided in the notification it appears that the amount of residual soil contaminated above background or MDL levels would be minimal at the end of remediation. Therefore, we believe that you should consider removal of this material so as to eliminate long-term management requirements.

Please coordinate with the CDPHE project lead and support person assigned to this project, Elizabeth Pottorff, at 303-692-3429 and Dave Kruchek, at 303-692-3328.

Sincerely,

Steven H. Gunderson
Rocky Flats Project Coordinator
