RE: Reconnaissance Level Characterization Report (RLCR) and Pre-Demolition Survey Report (PDSR) for B891 - Concurrence

Dear Mr. Rampe:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the RLCR/PDSR for Building 891; Revision 0 dated July 18, 2005. We provided comments and have received revisions to the RLCR/PDSR. Based on the previous removal of potentially contaminated equipment and systems, and information contained in the RLCR/PDSR, as revised, we are hereby concurring with the determination that Building 891 is a Type 1 Facility, allowing for the appropriate demolition of Building 891.

If you have any questions regarding this correspondence please contact me at (303) 692-3328.

Sincerely,

David A. Kruchek
Acting Rocky Flats Oversight Unit Leader

Broomfield, CO 80021-2583

RE: Building 891 notification of intent to invoke the Facility Component Removal, Size Reduction, and Decontamination Activities RSOP (Component RSOP) - concurrence

Dear Mr. Rampe:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has received your June 17, 2005 letter notifying us of your intent to utilize the Component RSOP for disconnection, removal, and packaging of equipment, and decontamination of building surfaces within B891. We are hereby concurring that this activity may proceed utilizing the Component RSOP.

If you have any questions regarding this correspondence please contact me at (303) 692-3357 or David Kruche at (303) 692-3328.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator

Mr. Steven H. Gunderson
 RFCA Coordinator
 Colorado Department of Public Health and Environment
 4300 Cherry Creek Drive South
 Denver, CO 80222-1530

Dear Mr. Gunderson:

In accordance with the Rocky Flats Cleanup Agreement Standard Operating Protocol (RSOP) for Component Removal, Size Reduction and Decontamination Activities, this letter and its enclosures is notification for RSOP implementation. This notification is for all activities required to bring Building 891 to the unrestricted release criteria with the exception of RCRA unit closure. This will involve component removal, size reduction and decontamination activities utilizing the methods specified in the RSOP. Additionally, a closure description like document is included to address the RSOP requirement for a closure plan that meets the substantive elements of a Closure description document.

Kaiser-Hill or a subcontractor will conduct this work. If Kaiser-Hill or the subcontractor would like to use a method or process not included in the RSOP, then they are required to notify and, in consultation with the U. S. Department of Energy (DOE) and the Lead Regulatory Agency (LRA), the RFCA process for decision document modification will be used.

The appropriate checklists and information required by the RSOP are enclosed in this letter and should provide the necessary information. This work will be conducted in accordance with the work control documentation prepared by Kaiser-Hill or the subcontractor. The exact methods and process selected by Kaiser-Hill or the subcontractor and progress of the activities will be communicated to DOE/LRA through
