Gentlemen:

We are transmitting copies of Technical Memorandum 5, for Operable Unit No. 1 (881 Hillside) for amendment of the OU1 Final Phase III Work Plan. The subject of Technical Memorandum 5 in "Surface Soil Sampling and Analysis Plan." Your comments from the January 28, 1992 meeting have been addressed, including the cost and delays to other activities.

The estimated \$250,000 cost of this additional work can be accommodated into the OU1 budget without exceeding the monies allocated because of savings associated with the five month acceleration of OU1 field activities. Therefore, there will be no impact on OU1 or other IAG activities.

Please contact Scott Grace of my staff at 966-7199, if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "David P. Simonson".
