IAG DELIVERABLE: SUBMITTAL OF THE PHASE III REMEDIAL INVESTIGATION (RI) REPORT FOR OPERABLE UNIT NO. 1 (OU 1) - JMK-0529-92

Ref: J. M. Kersh ltr, JMK-0178-92, to R. M. Nelson, Jr., Request for Extension of OU 1 IAG Schedule for Remedial Investigation, March 13, 1992

Per the requirements of the Interagency Agreement (IAG), enclosed is the Draft OU 1 RI Report for Department of Energy (DOE) review. At the direction of S. R. Grace of your staff, two copies of the document are being submitted to DOE. The IAG schedule delineates a DOE review time through June 30, 1992. EG&G then has until the July 30, 1992 Environmental Protection Agency/Colorado Department of Health (EPA/CDH) submittal date to incorporate DOE comments and revisions.

As you are aware, EG&G requested in its letter of March 13, 1992 an extension on this submittal date. DOE in turn requested an extension from EPA and CDH on the IAG milestones for this submittal. The DOE request was sent to EPA and CDH on May 21, 1992. For EG&G to meet our milestone dates, we must submit this document to DOE without waiting for the EPA/CDH response to the extension request.

Because of the size of this document, and the efforts required to revise a document of this size, EG&G requests that DOE return comments to us as quickly as possible.

Please contact C. B. Gee of the Remediation Programs Division at extension 8550 with questions and to return comments on this document.
