United States Government

Department of Energy

Rocky Flats Office

memorandum

DATE: MAY 17 1990

REPLY TO
ATTN OF: ERD:PS 6561

SUBJECT: Tour of 881-Hillside Site

TO: Jack Kersh, Associate General Manager
Environmental Restoration & Waste Management
EG&G Rocky Flats, Inc.

The U S Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH) have informed the U S Department of Energy that they would like to take a tour of the 881 Hillside Site sometime prior to the 881 Hillside restart briefing. Although this briefing date has not been formalized, Tom Olsen and Paul Singh of my staff will be taking a similar tour in coordination with your staff on May 18, 1990. The purpose of the "practice" tour is to anticipate any obstacles or questions that may arise during the EPA and CDH tour. Your support in the form of EG&G staff participation would be appreciated in an effort to assure that the Rocky Flats Plant commences with a successful restart at the 881 Hillside.

If you have any question please feel free to contact me or have your staff contact Paul Singh of my staff on extension 5921.

Jack R. Roeder, Acting Assistant Manager
for Environmental Management
